Dear Sus and Madams,

It has come to our attention that petition 98P-0151/CP1 is coming before your office. I am writing to you today to ask that you grant this petition. The treatment of all animals especially "downed" animals is of great importance. All animals have a right to humane treatment. The slaughter and treatment of "downed" animals causes extreme suffering and I am begging you to have compassion on these injured animals. "Downed" animals also cause an increased risk to humans who choose to eat meat. As you know mad cow disease is a very real threat and not one to be taken lightly. The percentage of downed animals is small. I encourage you to aid animals with preventative care and better handling so in the future this will not even be an issue.

I am looking forward to your support of this petition. The animals who suffer, and I thank you.

Sincerely, C 3654  
Monica Anthony  
Jim Anthony
